All-In-One Classroom AV Solutions

Features & Benefits

All-in-one wall mount solution.

Combines an easy-to-use classroom control with a high-quality infrared microphone system. Versatile short throw wall mount integrates speakers, audio amplifier, AV switcher and projector mount.

Fingertip control.

Give your teacher full control of the classroom at the touch of a button with RoomPro's teacher friendly, easy-to-install wall panel.

Virtual management.

Let your teacher manage the classroom virtually from a computer, wireless tablet or interactive whiteboard with RoomPro ONE's control panel emulation software that provides mobile control and eliminates the need for cumbersome classroom remotes.

Fully optimized audio.

RoomPro ONE ST's built-in infrared (IR) microphone system offers high quality sound reinforcement for an optimal auditory learning environment.

Precision engineered.

Designed for customers wanting a wall mount solution, RoomPro ST seamlessly integrates Premier Mount's UNI-EXT with speakers, the RoomPro Audio Amplifier and AV Switcher.

Exceptional audio and video.

Receive unparalleled audio and video quality through RoomPro's unique, safe, low-voltage design that automatically converts audio and video signals to run over CAT5 cabling of up to 150 feet!

Ready for instant use.

RoomPro is conveniently pre-programmed to your projector's specifications for instant out-of-the-box use.
