This system is amazing. The sound is awesome and I love the mic. I just wish I had seen this three years ago before we started doing all of our classrooms.

All-In-One Classroom AV Solutions

Features & Benefits

The complete package. The revolutionary RoomPro ONE All-In-One Classroom System offers a total classroom control and sound reinforcement system in one low-cost solution.

Fully optimized audio. RoomPro ONE's built-in infrared (IR) microphone system offers optimized voice enhancement and 360° sound reinforcement for full-classroom auditory learning, while ensuring teachers' lessons won't be interrupted by outside interference.

Fingertip control. Give your teacher full control of the classroom at the touch of a button with RoomPro ONE's teacher-friendly, easy-install wall panel.

Virtual management.

Let your teacher manage the classroom virtually from a computer, wireless tablet or interactive whiteboard with the RoomPro Virtual Control Panel emulation software that provides mobile control and eliminates the need for cumbersome classroom remotes.

Engineered for quick installation.

RoomPro ONE includes a one-of-a-kind, all-metal ceiling enclosure that attaches cleanly to the ceiling and integrates speakers, audio amplifier, A/V switcher and projector mount all in one.

Safe, low-voltage design. Receive unparalleled audio and video quality through RoomPro ONE's low-voltage design that automatically converts audio and video signals to run over just two CAT5e cables!

Full complement of voice amplification options.

RoomPro ONE voice amplification options include an IR Pendant-Style Microphone that features an audio input jack for seamless connection to an iPod®, MP3 player or optional plug-in headset that rests comfortably around the teacher's neck.

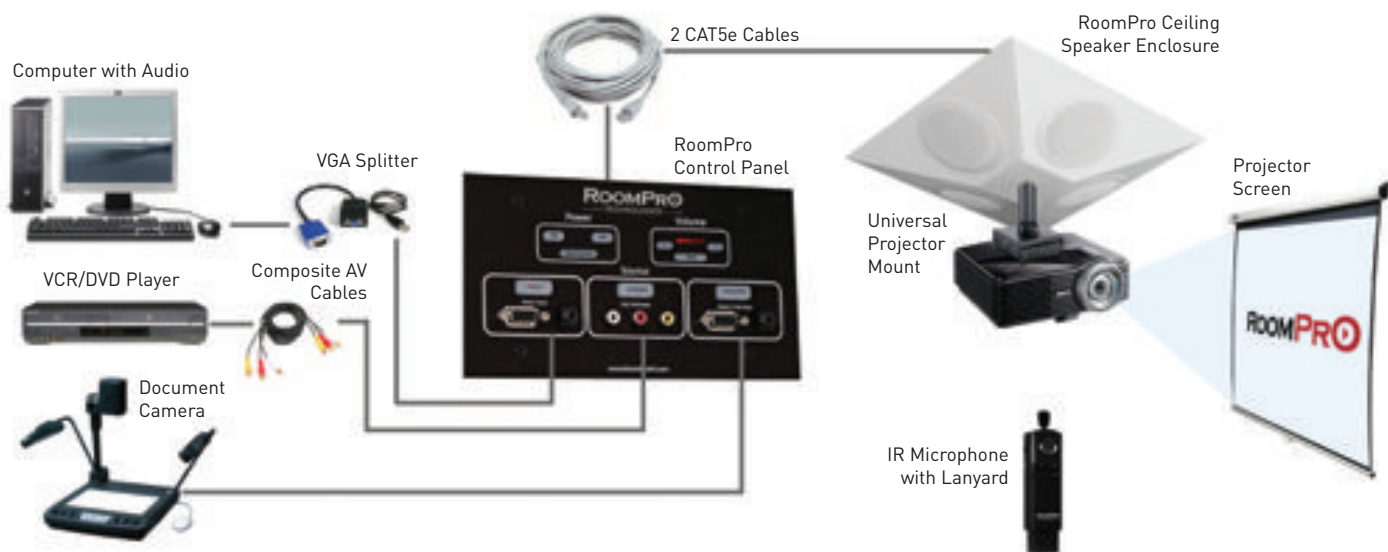

Full audio support. RoomPro ONE provides full audio support with multiple audio inputs and one audio output to record lessons and create podcasts to share with others.

Automatic audio enhancement. Put your teacher in full audio control with RoomPro ONE's "ducking" feature that automatically enhances the teacher's voice while lowering audio volume from DVDs or other sources.
